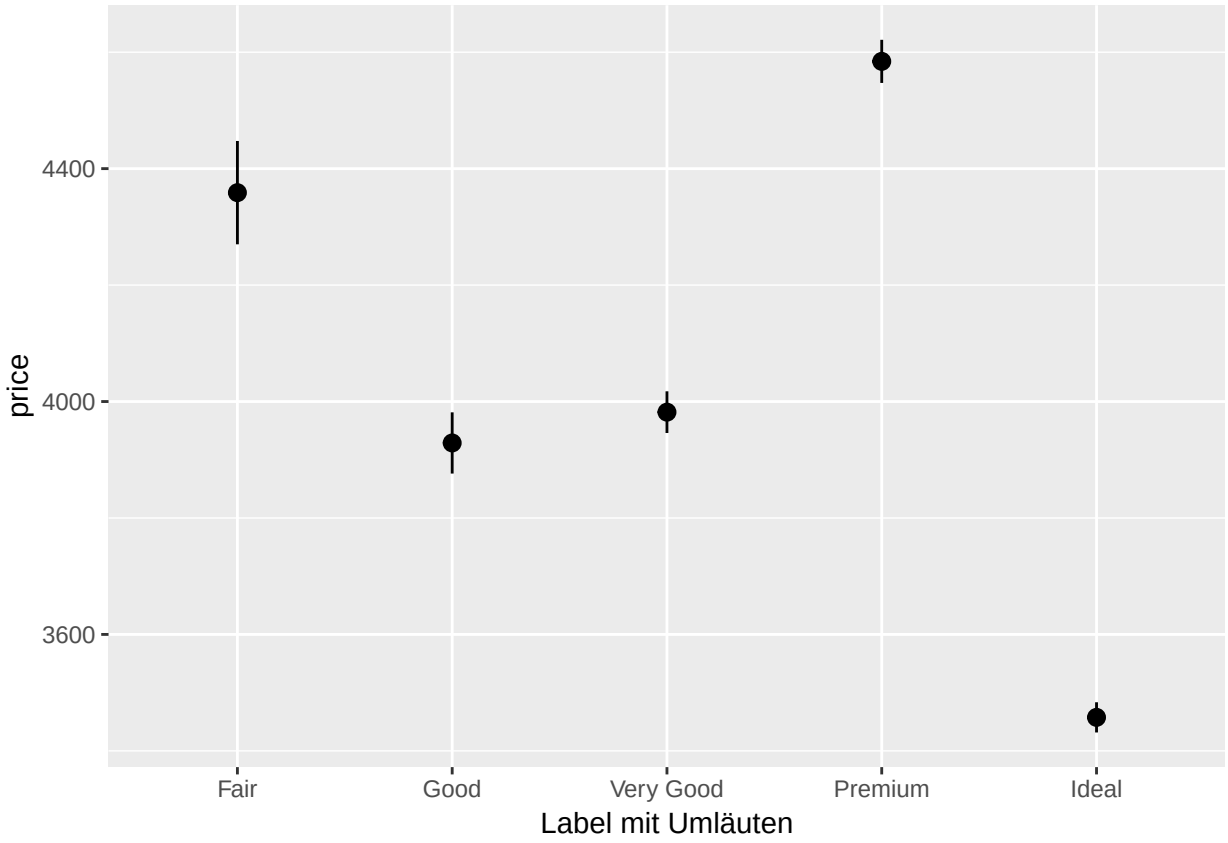
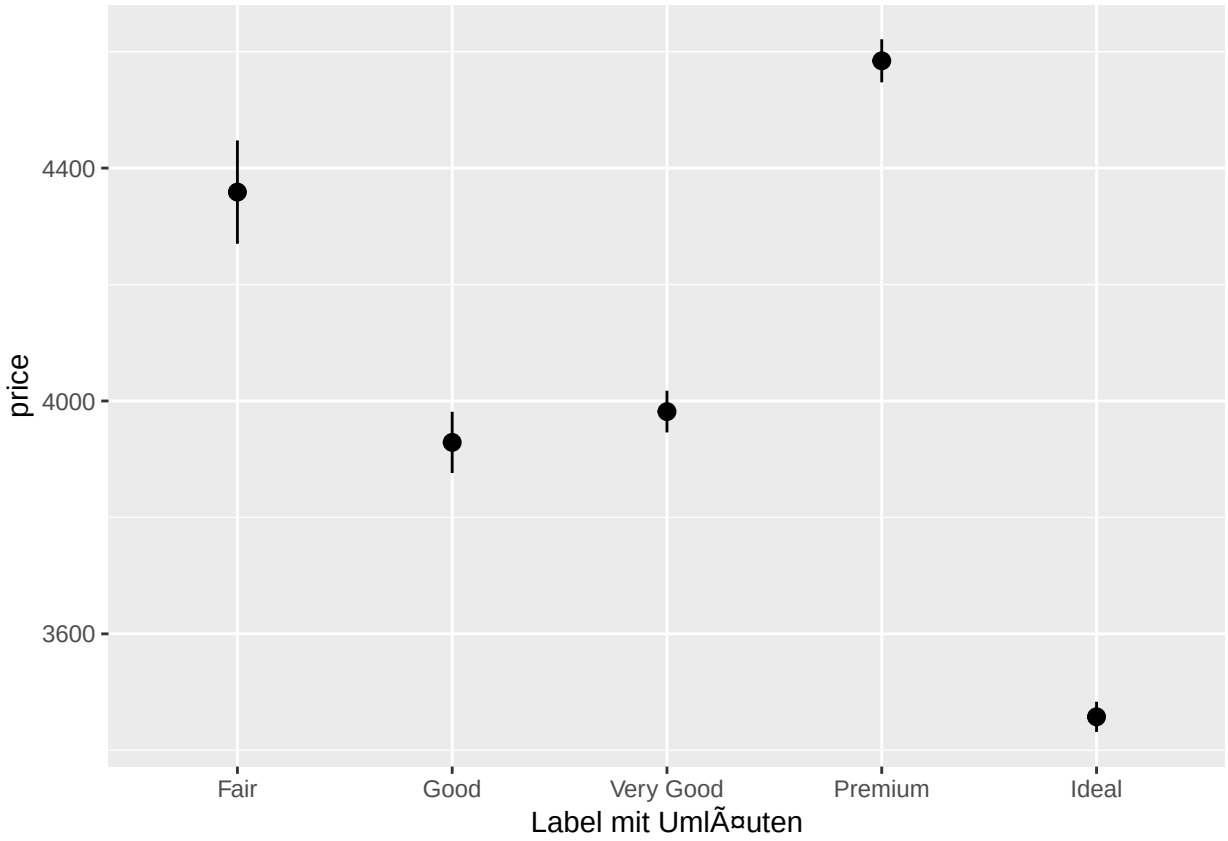
Umlauttest

```
# Works: Generated in .Rmd file
(
  umlautplot2 <- diamonds %>%
    ggplot(aes(x = cut, y = price)) +
    stat_summary() +
    labs(x = "Label mit Umläuten")
)
```



```
# Doesn't work: Called from umlautplot.R
# Works fine when calling it within umlautplot.R, though.
umlautplot
```



```
# Works: Called from the plot generated within the .Rmd
umlautplot2
```
